DRISHTi

Course Feedback Received

Project Name: Proposal for Setting up a Digital Course on Health Research Ethics

Project Title: DRISHTi (Developing Capacity in Health Research Ethics through Training)

Application ID: GT365

Date of Notification of Award: 09.12.2020

Starting Date of Project: 16.12.2020

End Date of Project: 15.09.2021

Name of the organisation: Sangath, Bhopal

Table 1. Module wise feedback

on a scale of 1 to 5 (1 being '*very bad*' and 5 being '*very good*')

Table 1, The feedback was collected on each module by uploading a Microsoft Form on the learning management system (LMS). The feedback form asked the respondent to rate their experience/satisfaction with the module overall (shown in blue), pre-recorded videos (orange), Readings/resources (grey), webinar (yellow), and other content e.g., Bonus videos (green).

Module 9 feedback form had only one respondent.

DETAILED FEEDBACK RECEIVED PER MODULE

Module No.	1
Module Title	Introduction to Research Ethics
Module Lead	Dr. Amar Jesani
Rating	
-Module overall	4.1
-Pre-recorded videos	4.1
-Readings/resources	4.1
-Webinar	4.3
-Other content e.g. Bonus videos	4
What did you enjoy most about this module?	*(Selected quotes)* • *Jesani Sir's teaching* • *Discussion with group members and debriefing by Dr Amar* • *eight benchmarks of ethical principles, Ethics and law*

Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *Learning from the previous research ethics, Dependance, Task analysis* • *The theories and principles pf moral/ethics reasoning were totally new topic for me. It was really useful. I also really enjoyed the narrative on the development of bioethics in India.* • *Learn from Mistakes, Apply Ethics in Day to Day Practice, Start Questioning*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *tbh, no... my doubts were actually clarified.* • *Need more clarity on ways to address power inequalities between the researcher and the participants* • *The theories seemed a little confusing*
What is the most valuable thing you learned today (knowledge or skills)?	• *The need to build collaborative partnerships by sharing responsibilities while planning the research and dissemination of results* • *Critically thinking about ethical perspective while reading a research papers or articles.* • *Why ethics is important and how it is deeply interconnected with the human rights.*
Overall, how can we improve this training?	• *I felt the content of the lectures was too much for one week , it was difficult to manage with other ongoing professional responsibilities* • *Shorten the video content, make it more interesting in terms of less words - more visual* • *Perhaps this can be answered after attending and experiencing few more weeks*
Any additional comments you wish to share?	• *Love listening to amar jesani* • *I am learning now. I will share in coming days if I will face any problems.* • *Assessment Q 10 not able to click reply and takes time to submit or site help up*

Module No.	2
Module Title	**Informed Consent Process, respecting Privacy and Confidentiality**
Module Lead	**Dr. Olinda Timms**

Rating	
-Module overall	**4.7**
-Pre-recorded videos	**4.7**
-Readings/resources	**4.7**
-Webinar	**4.7**
-Other content e.g. Bonus videos	**4.6**
What did you enjoy most about this module?	• *I enjoyed the videos because the faculty presentation was very clear and all content explained very well.* • *I enjoyed reading about how can we protect someone's privacy and confidentiality and also the importance of developing a well defined and explained informed consent. It was interesting to know about the different types of consent and how and why it is applicable to different types pf research and also different population groups* • *webinar*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *Informed consent levels and participants Information sheet Privacy and confidentiality, these are the things which may anticipate in my future work.* • *How to preserve and protect one's privacy and confidentiality and its implications on the participant and research study. - There are a lot of things that I had missed out in my PIS and ICF while conducting various research studies among vulnerable population. This module has really helped me to understand and learn the different components which is essential and needs to be incorporated in an ICD* • *The application of a properly drafted informed consent, to ensure the process of informed consent is well documented and recorded*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *I felt that the entire module was well explained* • *It would be good to know more about Dynamic consent and when is it required?*
What is the most valuable thing you learned today (knowledge or skills)?	• *I underestimated the importance of ICD. I think it is very crucial for the participant to understand the research study and to completely understand the risks and benefits to practice one's autonomy by making informed decision. I can say that*

	this module has instilled a better understanding in me and I would keep these learnings in mind right from the inception of research design.
	• *How women belong to vulnerable population - because of social and systemic positioning*
	• *How to teach...*
Overall, how can we improve this training?	• *If correct answers for the assessment can be made available after submission*
	• *Breakout room with 7-8 participants with everytime a different set of co learners, there is no room for voicing opinions for all in the limited timeframe.*
	• *More visual aids*
Any additional comments you wish to share?	• *Assignment can be given to write a consent form on a particular scenario*
	• *Loving the modules....*

Module No.	3
Module Title	**Risk Benefit assessment**
Module Lead	**Dr. Mala Ramanathan**
Rating	
-Module overall	**4.7**
-Pre-recorded videos	**4.7**
-Readings/resources	**4.4**
-Webinar	**4.1**
-Other content e.g. Bonus videos	**4.3**
What did you enjoy most about this module?	• *Dr. mala is an excellent teacher. I enjoyed her simplified and clear teaching*
	• *Comprehensive coverage of the topic.*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *What are the types of risks, how risks can be mitigated, how to look at participant's risk and benefits*
	• *Risks, and Benefits involved in research. Use this knowledge while drafting next proposal*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *Commission and Omission of risks*
	• *Nil*
What is the most valuable thing you learned today (knowledge or skills)?	• *the role of the researcher (skills/competence) for risk benefit analysis as a pre-requisite*

	• *harm is not just commission it can also be omission*
	• *Glad to learn about ethical frameworks for risk-benefit assessment.*
Overall, how can we improve this training?	• *please keep the videos straightforward and brief.*
	• *More graphical representation of information might help in retaining better.*
Any additional comments you wish to share?	• *the lectures were well paced, flow was good, easy to grasp and concepts were well organised*
	• *please provide the correct answers of the MCQ's after finishing the assessment*

Module No.	4
Module Title	**Responsible Conduct in Research**
Module Lead	**Dr. Vina Vaswani**
Rating	
-Module overall	**4**
-Pre-recorded videos	**4.1**
-Readings/resources	**4.1**
-Webinar	**4**
-Other content e.g. Bonus videos	**4.2**
What did you enjoy most about this module?	• *course material*
	• *The webinar live session was extremely interesting and thought provoking*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *Authorship and guidelines regarding publications helpful in developing a budding researcher to a responsible scientist.*
	• *The concept of mosaic plagiarism, factors contributing to authorship*
	• *Nothing to add*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *Conflict of interest can be elaborated further*
What is the most valuable thing you learned today (knowledge or skills)?	• *Stand for the right things*
	• *Publication ethics*
Overall, how can we improve this training?	• *Can add more illustrations.*
	• *Make the learning more self paced and prior intimation of webinar timings*
Any additional comments you wish to share?	• *Ethical framework for publishing has been explained quite clearly. Thanks a lot to Dr. Vaswani.*

	• *Could you kindly make sure that not all questions in a feedback form are mandatory? Sometimes, I have nothing to say for one or more questions.*

Module No.	5
Module Title	Conflict of interest
Module Lead	Dr. Vina Vaswani
Rating	
-Module overall	4.3
-Pre-recorded videos	4.4
-Readings/resources	4.4
-Webinar	4.7
-Other content e.g. Bonus videos	4.3
What did you enjoy most about this module?	• *concept and case studies* • *Complexity of conflict of interest*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *what is COI, how we identify this and manage COI* • *Process of addressing Conflict of interest, current unethical practices in medical colleges especially practiced by life partners in different specialties. Also importantly to call out and stand up for things which are wrong.*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *Nil*
What is the most valuable thing you learned today (knowledge or skills)?	• *SKILLS TO MANAGE COI* • *COI disclosure*
Overall, how can we improve this training?	• *a little more simplification of the content would be helpful* • *Doing good*
Any additional comments you wish to share?	• *I would like to suggest that after the completion of the entire course, is it possible to give the right answers to all the assessments.*

Module No.	6
Module Title	Research Ethics Guidelines
Module Lead	Dr. Roli Mathur
Rating	
-Module overall	4.3
-Pre-recorded videos	4.3

-Readings/resources	**4.5**
-Webinar	**4.3**
-Other content e.g. Bonus videos	**4.3**
What did you enjoy most about this module?	• *Difference in Indian GCP* • *study materials*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *1.ICH GCP 2. Indian GCP Vs GCP* • *GCP, Ethics committee, Informed consent*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *Nil*
What is the most valuable thing you learned today (knowledge or skills)?	• *In clinical research one needs be cognizant of patients consent and the protection of data.* • *Comparison of indian GCP/ICH*
Overall, how can we improve this training?	• *Nil*
Any additional comments you wish to share?	• *Nil*

Module No.	**7**
Module Title	**Ethics Committees and the process of ethics review**
Module Lead	**Dr. Nandini Kumar**
Rating	
-Module overall	**4.7**
-Pre-recorded videos	**4.7**
-Readings/resources	**4.7**
-Webinar	**4.7**
-Other content e.g. Bonus videos	**4.7**
What did you enjoy most about this module?	• *The discussion with the instructor* • *functioning of EC*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *ethics committee, members, responsibility* • *The compensation for trial participants*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *Nil*
What is the most valuable thing you learned today (knowledge or skills)?	• *functioning of EC*
Overall, how can we improve this training?	• *Some hands on experiences, like a Mock IEC session*
Any additional comments you wish to share?	• *Excellent*

Module No.	**8**
Module Title	**Community engagement and Research involving specific populations**

Module Lead	Dr. Sunita Bandewar
Rating	
-Module overall	**4.5**
-Pre-recorded videos	**4.3**
-Readings/resources	**4.3**
-Webinar	**4.5**
-Other content e.g. Bonus videos	**4.3**
What did you enjoy most about this module?	• *Community engagement sesions with Sunita Sheel Vandewar and Dr Aqsa experienced whatever along with being trans person.* • *discussion during the webinar*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *being transparent and useful to the community on whom research is being done* • *Significance of community engagement*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *community driven research*
What is the most valuable thing you learned today (knowledge or skills)?	• *Why community engagement is important* • *community participation*
Overall, how can we improve this training?	• *Recorded videos can be shortened* • *All are well I am satisfied*
Any additional comments you wish to share?	• *content for each module is a bit lengthy that is difficult to cover*

Module No.	9
Module Title	**Health Communication**
Module Lead	**Subhra Priyadarshini**
Rating	
-Module overall	**5**
-Pre-recorded videos	**5**
-Readings/resources	**5**
-Webinar	**5**
-Other content e.g. Bonus videos	**5**
What did you enjoy most about this module?	• *Speaker*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *Communication in research*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *nil*
What is the most valuable thing you learned today (knowledge or skills)?	• *Communication in research*
Overall, how can we improve this training?	• *excellent*
Any additional comments you wish to share?	• *excellent*

Module No.	10
Module Title	**COVID-19 pandemic from the lens of ethics**
Module Lead	**Dr. Anant Bhan**
Rating	
-Module overall	**4.6**
-Pre-recorded videos	**4.6**
-Readings/resources	**4.3**
-Webinar	**4.3**
-Other content e.g. Bonus videos	**4.3**
What did you enjoy most about this module?	• *The first lecture and reading materials* • *speaker, contents*
Please list 2-3 key learnings from this module and how you anticipate applying them to your work in the future.	• *How a pandemic impacts ethics and rights of the marginalized communities* • *research ethics during emergency like pandemic*
Was there any subject matter that you found confusing? If so, please provide specific examples.	• *Lecture 2*
What is the most valuable thing you learned today (knowledge or skills)?	• *To think about whom, we never give any thought* • *Ethics during pandemic*
Overall, how can we improve this training?	• *Its a great collection of resource faculty and reading materials* • *excellent*
Any additional comments you wish to share?	• *I feel this module is a great learning experience. Due to time constraints bonus modules and webinars were created which can be made into mandatory modules and the total term of the course increased.*
